

Technical drawing of a cross-section of a pre-fabricated substructure. The drawing shows a cross-section of a cylindrical or semi-cylindrical structure. The outermost layer is labeled "Glass fabric tape 50x3 mm". Below this is a layer labeled "Aluminium foil (0.09 mm)". The main body of the structure is filled with a material labeled "Z1 - thickness 150 mm" and "Z2 - thickness 230 mm". A "Black sheet 15 mm" is shown on the left side. The structure is supported by a "C-Profile" at the bottom. A "Cap profile" is shown on the right side. A dimension line indicates a diameter of "Ø". A label "(P)" is placed near the bottom right. A note on the right side reads "Profile sheet thickness 0.6 mm". A note on the left side reads "pre-fabricated substructure shortened to length at site".
